With a Knife  
AND THEN ENDS HIS OWN LIFE

His wife cannot live. He had been confined in the county jail here as an insane prisoner, but was released a short time ago apparently cured. His manly nature returned Tuesday morning and when he committed his double crime he was a raving maniac.

## OF INTEREST TO VETS.

Commander Dean's Circular in Answer to Many Inquiries.

ANN ARBOR, Mich., July 6.—In answer to many inquiries made at the G. A. R. headquarters relative to the twenty-fourth national encampment, to be held at Washington, D. C., in September next, Commander Dean has issued a circular giving the following information:

"The encampment week commences on Monday, Sept. 19. The parade is on Tuesday, the 20th. The first business session of the encampment will be called to order on Wednesday, the 21st. The department commander, with so many of the comrades and their friends as may see fit to accompany him, will leave Ann Arbor Saturday evening, Sept. 17, on a special train of day and sleeping coaches via Toledo and the Pennsylvania railroad. Washington is hoped to reach about 8 p. m., Sept. 18. The rate of fare on all railroads has been established at \$11.50 from Toledo to Washington and return. The railroads in Michigan have adopted a rate of one cent per mile each way for the round trip, which, added to the rate from Toledo, gives the through rate from all points. It is hoped that the various roads in Michigan will sell tickets upon their lines to the junction points connecting with the route chosen by the department commander and by all other routes.

"It is hoped that the veterans and their friends in Michigan will have every possible opportunity to make the trip to Washington and return in a most comfortable and enjoyable manner. The department headquarters train and route has been arranged with such a desire as the actuating motive. Quarters in Washington should be applied for through L. P. Wright, chairman of the Michigan delegation, room 40, Atlantic building. Department headquarters will be at the Arlington hotel. Books for registration will be opened, and the comrades of the G. A. R. and their friends will be always welcome."

## KEELEY INSTITUTE.

For Benton Harbor—Description of the Building.

BENTON HARBOR, July 6.—A Keeley institute for the cure of drunkenness, the morphine and tobacco habits will be opened here next Monday. The management of this new institution have shown great foresight in choosing a pleasant place for their establishment. Benton Harbor is a genuine summer resort and is rapidly becoming popular in that respect. It is therefore a wise move on the part of the managers to establish their institute in a place which promises to be so pleasant and congenial to the patients who may visit it. The building leased is admirable in every respect. It is large, containing a number of pleasant, spacious, well ventilated rooms and is situated on a high bluff, but a short walk from the center of the town. The site commands a full view of Lake Michigan and of both the towns of Benton Harbor and St. Joe.

The treatment at this institute will be identical with that at Dwight, the physician in charge having been in training there for some weeks past. Michiganders, who may desire to secure treatment for the drinking or the morphine habits need go but a short distance from home for a cure and at the same time find a pleasant and enjoyable location. The facilities for reaching Benton Harbor are excellent. The Graham & Morton and other steamboat lines afford transportation from cities on the lake and the Chicago & West Michigan railroad and its branches have direct connections with all the northern part of the state. The prospects for the new institute are certainly favorable.

## WEEKLY CROP REPORT.

Injury Wrought by Excessive Rainfalls, Sunshine Needed.

LANSING, July 6.—Synopsis of weekly crop report: Northern counties—Reports from these counties indicate a generally favorable week for crops of all kinds, except in low places where excessive rains and low temperatures have prevented cultivation of corn. Grass and grain are reported considerably lodged in Otsego county, owing to the heavy rain of the 27th, but will not be injured materially. In Kalamazoo county there has been too much rain for corn and vegetables, but other crops are doing finely. Fruit promises to be abundant.

Central Counties—In this section rain is reported as having fallen on nearly every day during the past seven, which has had the effect of retarding cultivation and greatly delaying farm work generally. Wheat and oats look well where not lodged. Many farmers have begun haying, but little has been secured thus far. Apples and cherries are expected to be a light crop, while pears and all small berries are doing finely.

Southern counties—Haying is reported as well under way in some counties, and where there are low lands, great losses are reported in the hay fields, and corn is at a standstill. Wheat is improving, oats and barley in good condition on well drained lands. The weather generally has been too wet for crops and farming operations. Apples falling badly, and expected to be a light crop.

THE ATTORNEY-GENERALSHIP. The Tribune already made note of the candidacies of several of the popular gentlemen who aspire to be nominated for attorney-general by the republican state convention, and it takes pleasure in adding to the list the name of the Hon. Fred A. Maynard of Grand Rapids, who has been using his name in that connection.

Mr. Maynard has been prominent in state and fifth district politics for a number of years. He is in the prime of life, thoroughly educated, a lawyer of ability and large experience, splendidly equipped with executive and judicial qualities, and his friends claim that he is extraordinarily well equipped for the performance of the duties of the high office for which he is named. The Tribune has no hesitancy in saying that in the judgment of the claims of these friends are well founded. Mr. Maynard has never held office except at the outset of his professional career, when he was prosecuting attorney of Kent county, and when he retired from that office left behind him the reputation of having been one of the best public prosecutors the county ever had.

Mr. Maynard has an extended and favorable personal acquaintance throughout the state, and if nominated he would add strength to any ticket which may be placed in the field. He is a clear, forcible and eloquent speaker, and from the opening of the campaign until its close his voice would be heard in the cause of republicanism and good government. The Tribune prints in another column an editorial article from the Grand Rapids Herald, in which Mr. Maynard's candidacy which will be read with interest by republicans throughout the state.—Detroit Tribune.

Rents are due to wash-day, unless you wash with Pearline. It's the washing in the old way with soap and rub, rub, that makes the holes in your clothes. You can't get them clean without rubbing; you can't rub without wearing them out. A month of ordinary use won't make the wear and tear of one such washing.

Try a little Pearline—with soap. The dirt comes out easily and quickly without rubbing. There's no need to drag it out by main strength—there's nothing to hurt your clothes, no matter how delicate. There's no hard work about it either. It's easy washing—both for the woman who washes and the things that are washed. It's safe washing, too. Pearline removes the dirt, but won't harm anything else.

Beware of imitations. 100 JAMES PYLE, N.Y.
